

Workshop on Flow Cytometry and High Content Imaging

CSIR-IITR organized a 3-day (August 30-September 01, 2017) workshop on "Flow Cytometry and High Content Imaging" which was aimed to provide hands-on experience in flow cytometry and high throughput image analysis and use of these techniques in toxicology, drug development as well as basic research. Prof. Alok Dhawan, Director, CSIR-IITR, inaugurated the workshop that had 40 participants from different universities and institutes of the country. The valedictory function was held on September 01, 2017, wherein, after an interactive session, certificates were distributed by Professor Alok Dhawan, Director of the institute.

Inaugural function; Sitting on the dais (L-R): Dr Sanjay Yadav, Scientist, CSIR-IITR, Dr Nandini P. Basak, Applicant Scientist, Thermo Fisher Scientific, India, Professor Alok Dhawan, Director, CSIR-IITR, Dr D. Parmar, Chief Scientist, CSIR-IITR, Dr D. Ghosh, Scientist, CSIR-IITR, On Podium: Dr Smriti Priya, Scientist, CSIR-IITR.

Interactive session among participants and resource persons.
